--	---------------	--

The City of Bismarck is encouraging citizens to provide their comments for public hearing items on the Renaissance Zone Authority agenda via email to planning@bismarcknd.gov. The comments will be sent to the Renaissance Zone Authority prior to the meeting and included in the minutes of the meeting. To ensure that comments are compiled and forwarded to the Renaissance Zone Authority with enough time to review all comments, please submit your comments no later than 8:00 am the day of the meeting. Comments should also include which agenda item number your comment references and your

name. Late or anonymous comments will not be forwarded to the Renaissance Zone Authority or included in the minutes of the meeting. If you would like to appear via video or audio link for a 3-5-minute comment on a public hearing item, please provide your e-mail address and contact information to planning@bismarcknd.gov at least one business day before the meeting.

As always, live meeting coverage is available on Government Access Channels 2 and 602HD, or streaming live and archived online at FreeTV.org.

**BISMARCK RENAISSANCE ZONE AUTHORITY
MEETING MINUTES
June 13, 2024**

The Bismarck Renaissance Zone Authority met on June 13, 2024, in the Tom Baker Meeting Room in the City-County Office Building at 221 North 5th Street and remotely via the online platform Zoom. Chair Christianson presided.

Authority members present were Jim Christianson, Kirsten Dvorak, Joe Fink (Via Zoom), Dustin Gawrylow, Nancy Guy, Wayne Munson and Greg Zenker.

Design Advisors Eric Hoffer and David Witham were present.

Staff members present were Sandra Bogaczyk (Office Assistant II), Jannelle Combs (City Attorney), Ben Ehreth (Director of Community Development), Isak Johnson (Planner), and Daniel Nairn (Planning Manager).

CALL TO ORDER

Chair Christianson called the meeting to order at 4:00 p.m. and welcomed guests present.

MINUTES

The minutes of the May 9, 2024 meeting were distributed prior to the meeting.

MOTION: A motion was made by Ms. Dvorak and seconded by Ms. Guy to approve the minutes of the May 9, 2024 meeting. The motion passed unanimously by voice vote with members Dvorak, Fink, Gawrylow, Guy, Munson, Zenker and Chair Christianson voting in favor.

Mr. Fink joined the meeting via Zoom at this time.

**RENAISSANCE ZONE PROJECT – 100 WEST BROADWAY AVENUE CONDO, UNIT 301
LEE AND RENESS NELSON – PURCHASE OF PRIMARY RESIDENCE**

Mr. Johnson gave an overview of the staff report and stated that the applicants, Lee and Reness Nelson, are requesting to obtain Renaissance Zone designation for the purchase of a primary residential condominium in a previously approved (Project 80-B) Renaissance Zone project at 100 West Broadway Avenue, Unit 301. Mr. Johnson stated that the applicants are in the process of purchasing the condominium and gave a brief history of the building.

Mr. Zenker joined the meeting at this time.

Based on the findings contained in the staff report, staff recommended approval of the designation of the purchase of a primary residence in the building at 100 West Broadway Avenue, Condo Unit 301 as a Renaissance Zone project, with a 100% local property tax exemption for five years on the assessed value of the building.

Chair Christianson opened the public hearing.

There being no comments, Chair Christianson closed the public hearing.

Mr. Gawrylow stated that in fairness to taxpayers Authority members should approve the request but stated concerns that the Burleigh County Commission would disapprove.

Mr. Munson stated his sympathy regarding fairness to taxpayers but stated he could not support the request according to the letter of intent with the County. Mr. Zenker and Ms. Dvorak agreed that they would not be able support this request for similar reasons.

Mr. Johnson stated that the existing annual property tax on this one unit is \$5,733, as stated in the agenda packet, and the entire building's property tax would not be involved with the proposed tax incentive. He reminded members that before construction of Broadway Centre the block was assessed at \$175,000 and a \$24 million investment was made.

Mr. Zenker stated his concern that approving the request would conflict with Burleigh County Commission's stated requests since no improvement to the unit is being made. Ms. Dvorak agreed that if there is no improvement to the property that she would not be able to approve a tax break for the owners.

Mr. Gawrylow stated that approving the request would conflict with the letter of intent between the City and the Burleigh County Commission and suggested closing the block in the Renaissance Zone.

Chair Christianson asked the City Attorney if the City might be liable due to past Renaissance Zone approvals of a similar nature.

Ms. Combs stated that since the Authority is changing the program, she did not assume there is a risk.

Mr. Fink stated that the developer made a significant investment in the property and emphasized that in this case the developer chose to pass the tax break onto future buyers as a purchasing incentive instead of taking the tax break himself when the building was completed. He expressed his concern that discretionary decisions are not conducive to doing business in good faith. Mr. Gawrylow agreed that time limits might have to be written into the Development Plan so developers have better expectations.

There was discussion about the possibility of establishing a timeline or deadline for tax incentives for similar projects. Mr. Zenker and Ms. Guy both expressed that according to the letter of intent, Authority members cannot allow a tax break on a property which is not being improved. She suggested that members might choose to grandfather similar projects but believed the new plan guidelines should be followed and agreed the block should be closed from the Renaissance Zone if the request is denied.

At Chair Christianson's request, Mr. Johnson stated that staff is not aware of the condition of the two remaining units to be sold in this building. Chair Christianson stated that before the block is closed this question should be answered. There was a consensus.

MOTION: A motion was made by Mr. Munson and seconded by Ms. Dvorak to deny the designation of the purchase of a primary residence in the building at 100 West Broadway Avenue, Condo Unit 301, as a Renaissance Zone project, with a 100% local property tax exemption for five years on the assessed value of the building. The motion passed with members, Dvorak, Gawrylow, Guy, Munson and Zenker voting in favor. Members Fink and Chair Christianson opposed the motion.

DEVELOPMENT PLAN PUBLIC HEARING

Mr. Nairn summarized Authority's proposed changes to the Development Plan and City Ordinance.

Chair Christianson opened the public hearing.

There being no comments, Chair Christianson closed the public hearing.

Mr. Gawrylow stated his concern that the prior conversation about Renaissance Zone condominium projects should become an amendment. Ms. Combs stated that a public hearing would not be needed for an amendment to the Plan and since the ordinance goes to City Commission for public hearing, she saw no issues in notifying the public. Mr. Nairn stated that his opinion was that an amendment was not necessary given the unique circumstances of the property just discussed.

MOTION: A motion was made by Mr. Gawrylow and seconded by Mr. Zenker to approve adding to the Development Plan a 5-year time limit to use exemptions for any future condominium projects for units sold withing a previously approved project. The motion failed with member Gawrylow voting in favor. Members Fink, Dvorak, Guy, Munson, Zenker and Chair Christianson opposed the motion.

Ms. Guy stated she felt the timeline is arbitrary and felt that given the motion if a developer sold a property one day after the deadline it would be unfair to not approve an exemption. She suggested a different approach to the same issue in that the motion

might be based on improvements made, and if none then there is no benefit. Ms. Dvorak agreed. Mr. Munson and Chair Christianson agreed that no time limit is necessary in that case.

Mr. Fink stated that Authority members just denied the previous request for a tax benefit on an improved property, yet there seems to be a consensus that the Plan allows a tax benefit for an improved property. Mr. Gawrylow agreed.

Mr. Munson stated that Burleigh County is concerned that a tax collection will no longer be collected since time passed from the initial construction project until now.

There was discussion about property and income tax exemptions and past versus future project exemptions.

Mr. Fink explained that in fact the issue is not if there are improvements made to a property but rather when the property is assessed and therefore it affects all construction, not just condominium projects. There was consensus that the assessment triggers Renaissance Zone exemption status. Mr. Nairn clarified that the project in question was completed prior to the establishment of a baseline tax assessment and perhaps that is why County disagrees with the exemption for that particular property.

Chair Christianson stated his concern that continued dilution of the tax incentive at the request of only one political subdivision will turn away developers. Mr. Fink and Mr. Gawrylow agreed that at the very least developers should be able to know in advance what to expect and feel that the inconsistency is not conducive to establishing a good business relationship with developers.

There was discussion about the time allowed for purchases within a Renaissance Zone purchase of a primary residence designation to receive a tax incentive.

Mr. Nairn clarified that the Development Plan already allows Authority members to extend the timeline for completion of improvements, so there may be a similar way to delay start of exemption period.

Mr. Fink expressed his desire to work with Mr. Gawrylow between meetings to discuss nuances.

Mr. Munson suggested approving the Plan as currently amended to allow the political subdivisions time to review before the Renaissance Zone expires.

MOTION: A motion was made by Mr. Munson and seconded by Mr. Zenker to approve the amended Development Plan as presented in all submitted documents and materials. The motion passed unanimously by voice vote with members Dvorak, Fink, Gawrylow, Guy, Munson, Zenker and Chair Christianson voting in favor.

OTHER BUSINESS

Mr. Johnson notified Authority members that if they require a paper copy of the meeting agenda packet that they can notify staff the morning of the meeting and one will be made available to them.

Mr. Nairn clarified that a five-year extension would also be requested at the same time as amendments to the Plan, and there was a consensus of the Authority to proceed.

REPORT FROM DOWNTOWNERS

There were no items to discuss at this time, but Chair Christianson forwarded the information that the annual Art and Wine Walk event is this evening.

ADJOURNMENT

There being no further business, the meeting of the Bismarck Renaissance Zone Authority adjourned at 4:51 p.m. to meet again on July 11, 2024.

Respectfully submitted,

Sandra Bogaczyk - Recording Secretary

Project Narrative

First North, LLC and Mulloy Law, PLLC are requesting approval of Renaissance Zone (RZ) designations for a New Construction project and a Commercial Lease project, respectively, at 319 North First Street. The New Construction project would create a two-story office building, of which Mulloy Law, PLLC would be the sole tenant. Additionally, First North, LLC is requesting Downtown Design Review approval in conjunction with the New Construction project.

(continued)

Project Context

Land uses adjacent to the project area are depicted on the adjacent map:

Adjacent uses include a salon and residences to the north, parking to the west, restaurants and an auto service establishment to the south, and an office and vacant land to the east.

The proposed new construction project would include a combination of wood, architectural stone and metal materials for the exterior. The visual appearance of the structure would closely resemble a two-story residential, freestanding house. This style, as shown in attached renderings, would closely resemble other structures in the area (both residential and non-residential) without imitating any particular building directly.

Furthermore, the attached site plan shows the removal of a curb cut for a driveway along North 1st Street. Off-street parking is not required within the DF – Downtown Fringe zoning district and the removal of this curb cut would create an additional one-to-two on-street parking spaces. This would be a net benefit to the public.

The estimated cost of the construction project comes to approximately \$330 per square foot which surpasses the minimum level of investment of \$150 for a new construction, commercial project to be eligible for the Renaissance Zone

program. The subsequent law office tenant would bring an estimated 5-to-7 new employees to the Downtown area, further adding to the intent of the Downtown as a space of employment, residence and recreation.

Planning staff originally met with the applicant on February 16, 2024, to discuss their future plans before they purchased this specific property. At the time they expressed their intent to demolish the existing structure, which was falling into disrepair, and construct a new building. Staff communicated the anticipated changes to the Development Plan to the applicant at the time and in later communications closer to this hearing – particularly the discussions regarding new construction projects and recent demolitions.

Given the state of the building on the property in question (as seen in the above picture, as well as attached below), and the applicants consistent intent to demolish and reconstruct a new building, staff are treating this project as a new construction as if the lot was vacant. As such staff

(continued)

are proposing a baseline value of \$0 for the building.

*Note: The 'Assessed Building Value (existing)' and 'Annual Property Taxes (existing)' shown in the property information section are for the existing deteriorated structure and are meant to serve as a reference. Properties are assessed by the City Assessor's Office periodically; however, not every property receives a full walk-through appraisal every year. Therefore, it is possible that the changing conditions of the site would impact the building's appraisal if it were to be thoroughly appraised today. The estimated property tax benefit shown is assuming a baseline of \$0.

Public Engagement (RZ Projects only)

The public has been duly notified of this request. A notice was published in the Bismarck Tribune on June 28 and July 5, and 51 letters were mailed to the owners of nearby properties on June 28.

Review Standards and Findings of Fact

The request is evaluated according to standards contained within the Comprehensive Plan, Bismarck Code of Ordinances, and relevant state law. Findings of fact, related to land use, are presented in response to each standard.

Renaissance Zone

The property has not previously been designated a Renaissance Zone of this type and meets the relevant minimum project eligibility criteria for the City of Bismarck Renaissance Zone Program

Yes. The property has not previously been designated as a Renaissance Zone project of these, or any, types. The estimated cost of the new construction project meets the minimum level of investment of at least \$150 per square foot. The commercial lease project would therefore be eligible by being within an approved Renaissance Zone project, without a further minimum level of investment.

The proposed project is consistent with the goals and objectives of the City of Bismarck Renaissance Zone Development Plan

Yes. The following goals and objectives of the Development Plan would be supported by this project:

- A: Establish the Renaissance Zone as a mixed-use area accommodating a wide range of retail, governmental, service and residential functions.
- B3: Encourage the location of governmental, financial institutions and other service functions in the zone.
- E4: Encourage redevelopment that is within the provisions of the DC – Downtown Core and DF – Downtown Fringe zoning districts and the Downtown Design Guidelines (2015).

The proposed projects, as described, would redevelop a property to bring an established law firm within in the Renaissance Zone, therefore adding to the variety of businesses and functions supporting the overall goals of the program.

Use and design standards of the DC – Downtown Core or DF – Downtown Fringe zoning districts, as applicable, would be met with the proposed project (Section 14-04-21.1(4), 14-04-21.2 (4), 14-04-21.3, 14.04.21.4)

Yes. An office space, such as this, is a permitted use within the DF – Downtown Fringe district. The proposed design appears to meet the intent of zoning ordinance by providing visual interest and using high quality materials. Details regarding the design will be confirmed during the associated Downtown Design Review.

The project would meet all applicable building code requirements.

Yes. Adherence to building and fire codes would be verified prior to issuance of a building permit, subject to review of more detailed building plans. There are no features of the proposed design

(continued)

submitted with this request that present an obvious and insurmountable conflict with building code requirements.

Proper administrative procedures related to the request are being followed (Section 14-04-21.1(4)b, 14-04-21.2 (4)b)

Yes. An application requesting a Renaissance Zone designation approval has been submitted to the Community Development Department. Staff have reviewed the application and submit to the Renaissance Zone Authority for final consideration.

The public health, safety and general welfare will not be adversely impacted by the proposed design ([Goal S10-a](#))

Yes. As a cumulative result of all findings contained in this staff report, City of Bismarck staff find that the proposed Renaissance Zone project would not adversely impact the public health, safety, and general welfare.

Downtown Design Review

The 2015 Downtown Design Guidelines, and other relevant plans and policies, would be adhered to with the proposed design (Downtown Design Guidelines)

Yes. The proposed design generally conforms to the Downtown Design Guidelines and Downtown Streetscape Standards. The proposed design would be of a similar placement and general architectural style as other structures in the area, without imitating any one building specifically. The proposal appears to include high quality materials and architectural elements in the design while also incorporating two new trees into the streetscape.

The project would likely contribute to the overall walkability of the area through the introduction of new street trees and the removal of the curb cut along North 1st Street despite not introducing other pedestrian-oriented features such benches.

Given the relatively smaller scale of the project, planning staff are not concerned with the lack of other pedestrian-oriented design features.

The project would meet all applicable building code requirements.

Yes. Adherence to building and fire codes would be verified prior to issuance of a building permit, subject to review of more detailed building plans. There are no features of the proposed design submitted with this request that present an obvious and insurmountable conflict with building code requirements.

Proper administrative procedures related to the request are being followed (Section 14-04-21.1(4)b, 14-04-21.2 (4)b)

Yes. An application requesting downtown design review approval has been submitted to the Community Development Department. Staff have reviewed the application and submit to the Renaissance Zone Authority for final consideration.

The public health, safety and general welfare will not be adversely impacted by the proposed design ([Goal S10-a](#))

Yes. As a cumulative result of all findings contained in this staff report, City of Bismarck staff find that the proposed design would not adversely impact the public health, safety, and general welfare.

Staff Recommendation

Based on the above findings, staff recommend approval of the New Construction Renaissance Zone project for 319 North 1st Street as presented in all submitted documents and materials as a local property tax exemption on the total value of the newly constructed building. Staff also recommend approval of the Commercial Lease Renaissance Zone project at 319 North 1st Street within the proposed New

(continued)

Construction project with its associated state income tax exemption. Finally, staff recommend Downtown Design Review approval of the presented designs for 319 North 1st Street with the standard condition that any substantive revisions to the approved design of the New Construction project must be reconsidered by the Downtown Design Review Committee prior to implementation.
