

Fire Hydrant Maintenance

The City of Bismarck Public Works Department conducts fire hydrant maintenance in the **fall of the year**. Dates and locations of the maintenance areas are published in the Bismarck Tribune and listed below.

When a worker fully opens a fire hydrant for the flushing process, the following are checked and recorded:

- Visible and audible leaks
- Proper operation of valve
- Hydrant testing hours are from 8:00 am – 4:30 pm.
- Hydrant maintenance may result in rusty water.
- Customers are advised not to wash clothing during this time until their water clears.
- One way to help clear the water is to run lawn sprinklers.
